

UTSHO ROY

Backend Developer | Django & DRF | Python

📍 Mirpur 2, Dhaka 📞 01797732899

✉ utshoroy5@gmail.com 🌐 [GitHub](#)

Summary

CSE student with hands-on experience in backend development using Python, Django, and Django REST Framework (DRF). Skilled in building RESTful APIs, managing databases (MySQL, PostgreSQL), and developing scalable server-side applications. Strong understanding of authentication, API integration, and clean code practices. Seeking a backend development internship where I can contribute to real-world projects and further develop my software engineering skills.

Education

Palashbari Parashmani High School, Nilphamari SSC - 2019

Collectorate Public Collage, Nilphamari HSC - 2021

Projects

Smart Expense Tracker (Flask + MongoDB) Oct 2025 – Nov 2025

Web-based expense management system with authentication and transaction tracking.

🌐 [GitHub](#)

Developed a full-stack expense tracking web application with secure user authentication and transaction management features. Implemented CRUD operations for income and expenses, budget tracking, and secure login functionality. Designed RESTful routes using Flask and managed database operations with MongoDB. Focused on clean architecture and modular backend structure.

Student Task Tracker Dec 2025

Console-based task management application built using Python and object-oriented programming principles.

🌐 [GitHub](#)

Built a Python-based task management system that allows users to add, update, delete, and view tasks. Applied object-oriented design principles with separate Task and TaskManager classes. Implemented JSON file handling for persistent data storage and utilized the datetime module for task tracking.

Skills

Python

Backend Development, OOP, REST API Development

Django

Backend Development, Authentication, ORM

Django REST Framework (DRF)

RESTful API Development, Serializers, Token/JWT Authentication

MySQL & PostgreSQL

Database Design, SQL Queries, Relationships

MongoDB

NoSQL Database, Document-Based Data Modeling

React

Frontend Integration with REST APIs

HTML & CSS

Frontend Fundamentals

Certifications

Full Stack Web Development with Python, Django & React

Ostad

June 2025

Completed an intensive full-stack web development program focused on backend development with Python, Django, and Django REST Framework (DRF). Gained hands-on experience in REST API development, authentication systems, database management (MySQL & PostgreSQL), and frontend integration using React. Built multiple real-world projects following clean architecture and best coding practices.
